Dear North Attleborough School Community,

The District is thrilled to share the news that we've been invited into the eligibility period for the Massachusetts School Building Authority's (MSBA) program for a high school building project. [Read the press release here.](#)

This is a major first step of a multi-year process, and we will be working closely with the MSBA over the next several months on next steps. We look forward to engaging the community as the process develops, and will provide you updates along the way! Thank you.

Sincerely,

A handwritten signature in black ink that reads 'John J. Antonucci'.
