

## **TOWN OF NORTH ATTLEBOROUGH** **SAFETY POLICY**

It is the goal of the Board of Selectmen to provide the best service possible to our public at the best possible cost. Losses due to accidents make achieving this goal much harder. This statement of policy concerning safety is a reflection of the importance we place in operating in a safe manner.

It is management's responsibility to operate in a manner that provides a safe and healthy place for our people to work in and for our constituents. The TOWN OF NORTH ATTLEBOROUGH is committed to an organized program of safety management. All managers and department heads are expected to do their share to insure the success of the safety management program.

It is management's responsibility to develop and monitor procedures to detect and eliminate hazards, to provide training in safe work procedures, and to establish and enforce rules, which insure the maintenance of a healthful and safe workplace.

Management will be judged on their ability to carry out their responsibilities. A copy of this policy shall be provided to each employee and posted in prominent location at each work site.

It is the responsibility of every employee to work and act in a safe manner. The day-to-day actions of each employee decide whether our organization will operate safely. Disregard of this responsibility will not be tolerated.

Our constituents have the right to expect that they will suffer no personal loss as a result of using our facilities and services. We all must do our part to protect them.

By running our operations in a manner that prevents accidental losses from occurring, we help our organization and everyone in it, and our community to grow and prosper. Please do your part to help us reach our goal.
